HOLIDAYS ASSIGNMENT

CLASS-XII

SUBJECT-MATHEMATICS

TASK-1

Revise all chapters covered up till now in class.

TASK – 2(Assignment questions)

ANSWER THE FOLLOWING QUESTIONS IN YOUR CW NOTEBOOK:

a) Define the relation R in the set $N \times N$ as follows:

For $(a, b), (c, d) \in N \times N$, $(a, b) R (c, d)$ iff $ad = bc$. Prove that R is an equivalence relation in $N \times N$.

b) Prove that the function $f: [0, \infty) \rightarrow [-5, \infty)$ defined as $f(x) = 4x^2 + 4x - 5$ is both one-one and onto.

c) Show that the function $f: R \rightarrow R$ defined by $f(x) = |x| + x$ is neither one-one nor onto. Also find the range of f.

d) Determine whether the relation R defined on the set R of all the real numbers as $R = \{(a, b) : a, b \in R \text{ and } a - b + \sqrt{3} \in S\}$ where S is the set of all irrational numbers is reflexive, symmetric and transitive.

e) Find x and y, if $A = \begin{bmatrix} 1 & -1 \\ 2 & -1 \end{bmatrix}$, $B = \begin{bmatrix} x & 1 \\ y & -1 \end{bmatrix}$ and $(A + B)^2 = A^2 + B^2$.

f) Find A such that $\begin{bmatrix} 2 & -1 \\ 1 & 0 \\ -3 & 4 \end{bmatrix} A = \begin{bmatrix} -1 & -8 \\ 1 & 2 \\ 9 & 22 \end{bmatrix}$.

g) Find the co-factor of a_{12} in the following :

$$\begin{vmatrix} 2 & -3 & 5 \\ 6 & 0 & 4 \\ 1 & 5 & -7 \end{vmatrix}$$

h) Solve the following system of equations:

$$\frac{2}{x} + \frac{3}{y} + \frac{10}{z} = 4, \frac{4}{x} - \frac{6}{y} + \frac{5}{z} = 1, \frac{6}{x} + \frac{9}{z} - \frac{20}{z} = 2.$$

i) If $A = \begin{bmatrix} 3 & -4 & 2 \\ 2 & 3 & 5 \\ 1 & 0 & 1 \end{bmatrix}$, find A^{-1} and hence solve the following system :

$$3x - 4y + 2z = -1, 2x + 3y + 5z = 7, x + z = 2.$$

j) Find the product $\begin{bmatrix} 1 & -1 & 0 \\ 2 & 3 & 4 \\ 0 & 1 & 2 \end{bmatrix} \begin{bmatrix} 2 & 2 & -4 \\ -4 & 2 & -4 \\ 2 & -1 & 5 \end{bmatrix}$. Hence solve the $x - y = 3$, $3x + 4z = 17$, $y + z = 7$

TASK - 3

 2. To demonstrate a function one-one but not onto.

HOLIDAYS ASSIGNMENT

CLASS-XII

SUBJECT-ECONOMICS

TASK-1

Revise all chapters covered up till now in class.

TASK-2

Answer the Following questions on the class note book:

Read the following case study carefully and answer the following questions (1-5):

Case Study: The Great Transformation of 1991

In the early 1990s, India faced a severe economic crisis. The foreign exchange reserves had dropped to a level that was barely enough to pay for two weeks of imports. Inflation was reaching 17%, and the government was close to defaulting on its international debt. In response, the government introduced the New Economic Policy (NEP), often referred to as the LPG Model (Liberalization, Privatization, and Globalization). This marked a shift from a "License Raj" system—characterized by heavy government control and restricted private entry—to a more market-oriented economy. Key measures included the devaluation of the Rupee, the abolition of industrial licensing for most sectors, the reduction of import duties, and allowing Foreign Direct Investment (FDI). While these reforms led to a massive increase in GDP growth and a flourishing service sector, critics argue they neglected the agricultural sector and increased income inequality.

- Based on the text, identify the specific component of LPG described by the following actions:
 - Removing the "License Raj" and allowing firms to decide their own scale of production.
 - Selling off shares of public sector enterprises (Disinvestment) to private players.
 - Integrating the Indian economy with the world economy by reducing trade barriers.
 - What was the immediate "Balance of Payments" (BoP) crisis mentioned in the case? Why did the government have to devalue the Rupee as a response?
 - The case study mentions that the service sector flourished while agriculture was "neglected." Why did the New Economic Policy have a limited impact on the growth of the agricultural sector compared to the industrial or service sectors?
 - The 1991 reforms were largely influenced by conditions set by international organizations. Name the two major international financial institutions that provided the \$7 billion loan to India on the condition of implementing these reforms.
 - (Statement Based): "The New Economic Policy of 1991 was a move from 'Production by Masses' to 'Mass Production'." In the context of the shift toward globalization and FDI, discuss whether this statement implies a positive or negative impact on India's small-scale industries (SSIs).
- Analyze the following statements and determine if they are True or False, providing a brief economic reasoning: (6-9)
- Statement: "The main objective of the British colonial government was to develop the Indian industrial base."
 - Statement: "The Policy of 'Import Substitution' was aimed at protecting domestic industries from foreign competition."
 - Statement: "The 1956 Industrial Policy Resolution (IPR) gave the private sector the leading role in industrial development."
